

100 SERIES HOOK – from Linear Hanging Solutions.

Please note :- The 100 Series Adjustable Hook has been designed to hold a picture up to a maximum 3kg in weight. For pictures above this weight, you should use a 200 series hook – designed to hold a picture up to a maximum 7kg in weight.

Installation Instructions

- 1 Mark out position of fixing holes to suit required position of pictures.
- 2 Drill the appropriate sized holes for rawlplug, dependent on type of wall, ensuring that the rawlplug is a **tight fit** into the hole.
- 3 Place the brass plain washer on screw supplied, then fix hook to wall and tighten as required.

Drill Safety :-

Never drill above or below light switches or plug sockets, where electric cables may be concealed.

Use an electronic tester to check for hidden cables or pipe work before drilling.

Always wear safety glasses to protect your eyes when using a power drill.
